About the Administrative Record

The documents contained in this administrative record file were used by the U.S. Environmental Protection Agency (EPA) in identifying and selecting appropriate removal activities at the Montrose Chemical Corp. Superfund Site Historical Stormwater Pathway South Operable Unit, 20846 Normandie Avenue Removal Action, Los Angeles County, California, as documented in the U.S. EPA CERCLA Removal Action Memorandum dated November 2, 2005. The administrative record file will be supplemented with any public comments received by EPA during the public comment period, and EPA's response to such comments.

This administrative record file also includes by reference the documents in the *Montrose Chemical Corp. Superfund Site, Kenwood Avenue Removal Administrative Record, September 24, 2001* and the *Kenwood Avenue Removal Administrative Record, Supplement 1, February 21, 2002*.

EPA welcomes questions and comments on documents contained in the administrative record file. Please contact:

Susan Keydel
Remedial Project Manager
U.S. EPA (SFD-7-1)

What is an Administrative Record?

An administrative record is a collection of documents which forms the basis for an agency's decision, in this case the selection of a response action at a Superfund site. This does not mean that only documents which support a response decision are placed in the administrative record. Relevant documents that were relied upon in selecting the response action, as well as relevant documents that were considered but ultimately rejected, are included. The administrative record also acts as a vehicle for public participation in selecting a response action.

Under section 113(K) of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), as amended by the Superfund Amendments and Reauthorization Act (SARA), the U.S. Environmental Protection Agency (EPA) is required to establish an administrative record for every Superfund response action and to make a copy of the administrative record available at or near the site. The administrative record must be reasonably available for public review during normal business hours and should be treated as a non-circulating reference document. Questions regarding the maintenance of the administrative record file should be directed to:

Elaine Chan, Administrative Record Coordinator, U.S. EPA (SFD-7-B), 75 Hawthorne Street, San Francisco, CA 94105-3901, Phone: (415) 972-3128

How to obtain copies of administrative record documents:

Individuals may copy any documents contained in the administrative record file according to the procedures at the local repository or request a copy of the CD by calling the Superfund Records Center at (415) 536-2000.
